

# element61 SAP Business Analytics & Performance Management Day 2016

**Date : November 24 th, 2016**  
**Venue : Living Tomorrow**  
**Time : 12.00 - 18.00**

Timing			
12.00 - 13.00	Sandwich Lunch in the Networking Area		
13.00 - 13.30	Event Introduction & Welcome		
	Stijn Vermeulen, Managing Partner - element61 & Fabrice van Ex, Sales Director Business Analytics - SAP		
	SAP Business Intelligence Roadmap & Strategy		
13.30 - 14.10	In this session, you will get insight into SAP's overall Business Intelligence strategy and roadmap. The Solution portfolio will be explained including the new WebIntelligence UI and the convergence between SAP Lumira and SAP Design Studio.		
	Iver van de Zand, Global Analytics Hub Director - SAP		
	Optimizing the Sales forecast and budgeting process at Tessenderlo Group using SAP BPC 10.1 Embedded on HANA		
14.10 - 15.00	DYKA, an affiliate of Tessenderlo Group, has recently replaced their mainly Microsoft Excel based Sales Forecast process by a SAP BPC application tightly integrated with the existing BW actuals reporting cubes using the SAP BPC embedded model allowing a faster development and deployment. During this session they will explain their objectives and how BPC embedded on HANA plays a key role in achieving this. We will perform a live demo based on their resulting new SAP BPC planning application.		
	Jean-Marc Devouge, Teamlead BI - Tessenderlo Group		
15.00 - 15.25	Coffee Break		
Room	Business Intelligence Track	Advanced Analytics & DWH Track	SAP BPC Track
	<b>SAP BusinessObjects Cloud for BI and Planning</b>	<b>What new opportunities can a modern DWH using SAP HANA bring you ?</b>	<b>SAP BPC 10.1 Embedded/Standard on HANA Solution Demo</b>
15.25 - 16.05	During this session we will demonstrate how SAP BusinessObjects Cloud can offer an alternative for SAP BI on-premise solutions including planning functionality.	Discover the new Open SAP HANA Platform. What are the drivers for creating a data warehouse, when do you need one ? How does an agile and modern data warehouse look like ? Discover how the SAP HANA Platform can support multiple scenarios like multiple data sources, data lakes, IoT and other.	If you are new to SAP Business Planning & Consolidation, join the session to see a live demo of SAP BPC 10.1 on HANA and learn how to optimize and integrate your budgeting, forecasts and consolidation needs.
	Nico Sacré, Director Business Analytics & Frederic de Schutter, Partner Business Analytics - element61	Sandrine Pons, Senior Director EMEA Database, Data Management and Digital Transformation & Olivier Demeusy, Director EMEA center of Excellence - SAP	Bjorn Van Damme, Partner Business Analytics - element61
16.05 - 16.10	Room switch		
Room	Business Intelligence Track	Advanced Analytics & DWH Track	SAP BPC Track
	<b>Will SAP Lumira 2.0 become our BI Swiss Army Knife ?</b>	<b>How to get started with Advanced Analytics &amp; Big Data</b>	<b>Using SAP BPC for Microsoft as an integrated solution for the budgeting process at De Watergroep</b>
16.10 - 16.50	SAP Design Studio is rapidly expanding its capabilities and ease of use. It has become the prime Dashboarding and BI Apps front end, it can be deployed as a customizable data entry solution for SAP's Planning solutions and it is part of the Predictive Analytics Offering. At the same time it is converging with Lumira to fulfill your self-service BI needs. Can it really be that simple ? During this session you will receive a detailed view on Lumira 2.0 Capabilities.	There is quite some buzz around the power of Advanced Analytics & Big Data. Once you have made important progress in BI & Performance Management, you might wonder how you can get started and integrate these initiatives in your overall Business Analytics Strategy. Join this session to get started !	During this session De Watergroep will explain why they implemented SAP BPC (version for Microsoft) as an integrated solution and what impact it had on improving their budgeting and reporting process.
	Nico Sacré, Director Business Analytics - element61	Bart Van Der Vurst, Advanced Analytics & Big Data Architect - element61	Stijn Van Steyvoort, Business Controller - De Watergroep
16.50 - 16.55	Room switch		
Room	Business Intelligence Track	Advanced Analytics Track	SAP BPC Track
	<b>What's New in SAP BusinessObjects 4.2 ?</b>	<b>Unscrambling SAP's Predictive Analytics Offering</b>	<b>Best Practices to enhance the capabilities of SAP BPC 10.1</b>
16.55 - 17.35	During this session we will showcase the main novelties of the latest SAP BusinessObjects Release such as Direct access to HANA views, Sharing of Elements, Parallel Queries, Commentary Services, Geo Mapping and many more.	In this session you will gain insight in SAP's on-premise and cloud based Predictive Analytics Offering and how you can take benefit of it.	This session will cover a number of element61 best practices and enhancements to get the most out of your SAP BPC implementation. Topics such as "How elementaryPack plugs onto SAP's IFRS Starterkit", embedded journal models and Dynamic workflow menus within EPM Add-in will be covered.
	Cédric Lupo, Business Analytics Architect - element61	Bart Van Der Vurst, Advanced Analytics & Big Data Architect - element61 & Philippe Nemery, SAP	Bjorn Van Damme, Partner Business Analytics - element61
17.35 - 17.40	Room switch		
	SAP Digital Boardroom		
17.40 - 18.00	Right now, most leaders are challenged by heterogeneous reporting solutions and meetings dominated by static content. SAP Digital Boardroom transforms executive meetings from one-way presentations based on static media to interactive discussions based on real-time facts. You will see how SAP's digital boardroom can revolutionize the way your leadership team interacts with real time information for improved decision making.		
	Iver van de Zand, Global Analytics Hub Director - SAP		
18.00	Closing Cocktail & Networking Reception
