

Strengthen the foundation of your Analytics Journey with Data Governance

The recipe for Data Governance - Join us in the kitchen

Date: February 6th, 2024 | Venue: Bulthaup Showroom Zaventem
Address: Leuvensesteenweg 323, 1932 Zaventem

Timing	Agenda
12.00-13.00	Welcome Lunch
13.00 - 14.00	<p>Introduction & Data Governance Framework</p> <p>Data governance is a hot topic today. We will dive deeper into why it has become unexpendable. Experts from element61 will highlight what components make up a good data governance framework and where the low-hanging fruit is when you are just getting started.</p> <p><i>Tom Bouten, Principle Data Governance Architect - element61</i></p>
14.00 - 15.00	<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: center;">  <p>DEMO</p> </div> <div style="text-align: center;"> <p>Democratize data discovery with Zeenea</p> <p>There is no better complement to a data platform than a data discovery solution. By setting up a data catalog, you will open up your platform to the rest of the organization. With enriched metadata, a business glossary, and powerful search functionality, you will ensure your data is understood and findable for whoever needs it. Come and see how Zeenea provides one of the most flexible and intuitive experiences for data cataloging, combined with broad connectivity and powerful discovery features.</p> <p><i>Amir Hamza, Customer Success Manager - Zeenea</i> <i>Richard Mathis - Vice President of Sales - Zeenea</i></p> </div> <div style="text-align: right;">  </div> </div>
15.00 - 15.30	Coffee Break
15.30 - 16.30	<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: center;">  <p>DEMO</p> </div> <div style="text-align: center;"> <p>Deliver trusted data with Soda</p> <p>Having data you can't trust is just as bad as having no data at all. By building data quality checks in your data stack and CI/CD pipelines, you can monitor data quality all throughout the value chain and avoid exposing bad data to your consumers. Have these same consumers contribute to your data quality framework by defining checks in an easy-to-understand language. Join us to see how Soda makes this (and much more) possible.</p> <p><i>Mathisse De Strooper, Director of Product - Soda</i></p> </div> <div style="text-align: right;">  </div> </div>
16.30 - 17.30	<div style="display: flex; justify-content: space-between; align-items: center;"> <div style="text-align: center;">  <p>DEMO</p> </div> <div style="text-align: center;"> <p>Break through silos with Profisee</p> <p>When master data is managed in silos, reporting can suffer from duplicated and erroneous data. If you think about it, master data defines your organization, hence it deserves some special treatment. With Profisee, you can break down the silos that typically exist to create a golden record of your customers, suppliers, employees, materials, etc... During this session we will demonstrate the powerful merging and matching capabilities that allow you to consolidate critical data and provide a single source of truth across your organization</p> <p><i>Kate Kulikovich, Technical Partner Manager - Profisee</i></p> </div> <div style="text-align: right;">  </div> </div>
17.30 - 17.45	Wrap-up and future events
17.45 - 19.00	Reception & apero
